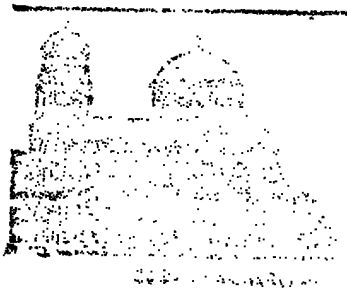
Dear David,

Excuse me for my simple English, but I believe that you will understand me. I learned your address from a letter of Bob Putham i Foreign Correspondent for USOF to my friend. I am delighted to learn that Orienteering in the US earns more followers and for its growth you need good maps.

My wife and I want to help you in mapping (Field Checking and probably Cartography).

First, I want to tell you something about us. My name is Miroslav Slavchev. Her name is Galka Miloushova Slavcheva. We are Bulgarian and our family is living in the town of Gabrovo. We are 31 years old and we have two sons. We have trained Orienteering since 1973. My wife took part in World SKI-O Championships in '80, '82, '84 and WOC in '81, '83. She is holder of silver medal from World SKI-O Championships - Relay in '84 (Italy). I took part in WOC '81 and in WOC '82 for students. Galka completed in 1983 the full course of the Higher Institute of Physical Culture and she was acknowledged the qualification of Trainer of Orienteering and Teacher of Physical Education. I completed in 1986 the Higher Institute of Architecture and Construction on the specialty of GEODESY, PHOTOGRAMMETRY and CARTOGRAPHY. I was acknowledged the qualification of Engineer of Geodesy, Photogrammetry and Cartography.



The field surveying from original photogrammetry is our favourite job in the last 4 years. I am drawing maps too. If you have projects for us and you want we help you in mapping, we will be very happy.

According to Bob's letter we can stay as much as possible in private homes, sharing meals with the host O-family and your club would then reimburse us for expenses while you are mapping. This is good, but we have some problems. The airline tickets are very expensive to and from the US. If your club is agree to be paid for our work per km² field checking, this will reimburse tickets' expenses. Your club to suggest what to be the value, which you can pay. Other problem this is receiving of visa from the US Embassy in Sofia. The consul wants "NOTARIZED AFFIDAVIT OF SUPPORT", which we will receive from you eventually. I think that this is a private invitation from any man who guarantees our stay in the US. The US Immigration Service will define the period of our visit, which will be consistent with this one, pointed in the invitation. I don't know how long is maximum period of stay, but we can stay as much as possible. We haven't any contract with you and we can visit the US like tourists only. We don't plan to have our own transportation during our stay.

The receiving of visa from the US Embassy after we present your invitation and buying of airline tickets, will take away us two months about.

If your club haven't any projects for us, you can suggest us another clubs which you know that they need the most help at that time.

We look forward to our coming to the US to help you.

Sincerely yours:
Miroslav Slavchev

P.S. I enclose our map.
