NIGHT MEET CANCELLED

B.O.C.'s night meet planned for June 21 has been cancelled.

Permission was not granted by the Erie County Parks Department to be in Chestnut Ridge Park after 9 pm. Rather than relocate the event, change the date, or change the time (and hence the format) it was decided to cancel the meet.

MEET REPORT - APRIL 13

B.O.C.'s first meet of the spring was held at Camp Schoellkopf on a brilliantly sunny day. The weather was just right for

dashing or ambling through the woods.

The format was "score-0" with a choice of time limits: 60 minutes for the less-in-shape, or 90 minutes for the more-in-shape. All of the Open Men on the longer course were able to find all of the controls within the 90 minute time limit.

A mass start was attempted but not all of the participants were able to cooperate. The organizer, Dave Staszak, was appropriately generous about assigning later start times to late arrivals.

Unfortunately, only the top three finishers in each category were reported to the newsletter editor so that is all we can report to you.

MEET REPORT - MAY 10

B.O.C.'s second meet of the spring was held at the Sardinia Forest. A disappointing turn-out of 16 entries marred an otherwise flawless event held under flawlessly sunny skies. (Your editor was the Meet Director.)

Three courses were offered in addition to a map-hike. The latter was popular with the two groups of first-timers.

The Yellow course proved a bit too challenging for those who chose it even though all of the points were on or very close to linear features.

John Miklasz had a close but comfortable margin to win on the Orange course. Mark Wolfling was 2:23 behind. After finishing, John treated everyone to a demonstration of "roller blades" which are like "roller skis" in that they are used for dry road ski training but differ in that they simulate the modern skating technique rather than the diagonal stride. In the off-season, John is on the cross-country ski team at the Rochester Institute of Technology. Next year he'll be a sophomore there.

The workers on the finish line, Karen Wood and Sharon Schwab, managed to catch a few rays while waiting for the runners. Even the meet director was able to do a little basking while wondering where everyone was.

Other helpers were Pat Quinlan and Harry Belote. And the Erie County Parks Department was nice enough to open the Sugar Shanty to serve as a meet HQ. Results follow.
